

K-Love is the only radio station/broadcaster that plays the music I love to hear 24/7. The radio personalities are uplifting and decent people. K-love never uses profanities or off-color jokes. It is difficult to watch TV or listen to other radio stations without hearing bad/indecant language and jokes. Taking away K-Love's ability to broadcast will eliminate one of the most decent programming the US & abroad has. No other radio station provides Christian music and spritual & emotional counseling on a 24/7 nation-wide basis. The free counseling service is a valuable community resource because it is open to anyone and accessible via a toll-free # and provides hope and advice to those who want to get rid of their addiction, depression or whatever is troubling them. Please do not do anything to prevent K-Love from broadcasting loud and clearly. Thank-you!
